Uehiro Centre for Practical Ethics

University of Oxford

日時: 2017年8月30日(水) 14:00-16:00

場所: 東京大学駒場キャンパス

18号館4階コラボレーションルーム3

In a historical moment where privacy-invasive technologies are becoming ubiquitous, where an economy of personal data is fueling the internet, and where businesses are struggling to come up with ethical codes and states are passing laws to balance security and privacy, it is of the utmost importance to reflect on the nature of privacy, its value, and the rights and duties attached to it. The presentation looks at the ethics and political philosophy of privacy.
