

Water is Life; Water is Alive

A Japanese Way of Thinking

The mode of this talk is more philosophical than scholarly, its mood more imaginative than analytic. The goal is to free us to think about the synergy within the human and natural in a creative way, building on both ancient sensitivities and well-known empirical facts. To accomplish this, the talk will especially focus on water.

Thomas P. Kasulis
Professor Emeritus
The Ohio State University, USA

Monday, November 6th , 17:00~
Seminar Room, 2nd Floor, Building 101
